## PREZ SEZ with GLEN SCHILD

Spring is finally here, with all the wind we had this winter I'm ready for warm weather. Now that the car show is done I want to give thanks to everyone who had a part in it. The local business support of this year was huge. We couldn't have a car show without their help.

It was quiet amazing how many nice cars come out that you've never seen before. The enthusiasm seemed really high this year and people are already planning for next year.

Hope to see everyone back.

Now that the snow birds are making their way back home, it is time to start planning cruises and gatherings. We already have lots of events coming up and so we need to get our cars running properly and ready.

The Rod Run is sneaking up on us. It will be the 46th annual Black Hills Rod Run and it will be July 11th, 12th and downtown Cruiser Car Show on the 13th. I know Anna and I are ready to get out and cruise. I just wish our 2 boys would get the car bug so we could see more young people get involved.

I'm looking forward to seeing everyone driving around, so keep your eyes on the road and your hands on the wheel.

Glen Schild

## EDITORIALLY SPEAKING

with Jim

Wow, has this been a busy few months! Winter has been way too cold and long this year. So much for that.

We have worked long and hard to put this years Counts Car Show together. It appears at this time (mid February) that all is coming to a final great show experience. We will be featuring a collection of hand created masterpieces of automobile art done by a local Rapid City resident, Mike "Bergie" Bergstresser. His creations are all hand made and from his imagination. Many gear heads have seen some of his talented works but this display will give the automotive public an opportunity to share the experience. Motor Market magazine did a fantastic story on 'Bergie' in their February issue. This was a great advertisement for the car show too!

If you haven't been picking up a free copy each month of Motor Market magazine it would be well worth the effort to stop in to a auto parts, tire, and several grocery stores and convenience stores and get your free copy. I have been getting a story with photos of the Counts members and activities in the Black Hills area in most of the issues. I will have free back issues at the car show Counts booth in case you want to collect them.

The next big activity for club members and interested gear heads is our FIRST BUS TOUR in a long time. This time we will be heading to Lincoln, Nebraska to tour the SPEEDWAY MOTORS Museum of Speed.

This will take place on May 2nd and 3rd. I am planning on doing a story with pictures for the Summer issue of the Streetin' News. The bus is driven by club member Herman Jones and his wife so we are in good hands.

Next on the agenda is our annual NSRA Appreciation / Inspection Day at Steve and Deb Kroger's super garage in Piedmont, SD. The date is May 18th. Plan to have your car inspected and enjoy the cook-out picnic potluck

This same weekend, May 16, 17 and 18 will be 'Shakey' Jack Venables 4th annual SPRING FLING at the exhibit building and parking lot at the Pennington County Fairgrounds.

Check out the HUGE UPCOMING EVENTS schedule in this newsletter!

Here is a short letter from Associate Member Roger Blum concerning the Counts Car Show.

Hi Jim'

How are you and Ann doing after the long show-weekend? Tired I bet.

I would like to thank you for taking your valuable time to find a scooter for me to use while attending the show.

So many of the Counts members were so, super and I enjoyed seeing and visiting a little as time allowed. We cannot thank Dwight Burch enough either.

What a great show the Counts Car Club had again. The number of vehicles, and best of all the Quality was second to none. The workmanship, paint, upholstery and everything was unbelievable.

I did get to talk to Dorene, Henry Yantzer's fiancé, and give her a couple of pictures I had of Henry, the Packard and me when he bought the car from me. We should all try to enjoy each and every day as we never know what lies around the corner.

So again, THANK YOU : you probably know hoe much it meant to me to use the scooter and how much it means to me to have friends like you and Ann and the Counts. Roger & Evelyn Blum, Aberdeen, SD

Counts Streetin' News, Spring, 2014, PAGE 4

# Counts Garage Tour at Denny Volmer's

On a cold February 4th evening the Counts and several friends invaded Denny Volmer's garage in Piedmont, SD. Denny has been accumulating projects for several years. He has been able to complete several of these projects like his Model A hiboy roadster and his latest second generation 50's Ford station wagon.

The next project to see the light of day should be a nice black and silver '48 Ford pickup powered by a small block Ford and has a flip front end.

Other projects awaiting parts and time to work on them are a '48 Ford sedan, a '37 Chevrolet sedan and a Mopar coupe.

As you can see by the pictures it was an interesting garage tour with quite a few people enjoying the cars and all the great food and drink. If you went home hungry or thirsty you missed the snack table.

Everybody loved the tour, Denny!

# Counts First Shop Tour of 2014

G3 Rods has been around for a few years and their reputation for building high quality rods and street machines hasn't gone unnoticed.

During the last three months they have purchased the old Home Improvement building on West Chicago St. and remodeled it into one of the largest high tech rod building shops in the Midwest. This place is HUGE and they have a fabrication room, a metal working room, a body working room and an unbelievable paint booth. Out front they have an assembly area and a display area that can showcase some of their finished builds.

This along with a large office area and build planning area that can give customers an idea what their going to get for their money!

Having a car built by professionals isn't cheap but 3G's can do it less than a west coast or Denver shop can .

The Counts had a great time touring the facility and visiting with the 3G's guys. Great tour, impressive shop and location. JN

This nice late 60.s GTO was a very nice finished car

Another project, 55 Chevy PU

In the restoration stage GMC

This GTO will be in the car show

Brand new paint booth

# MEMBER PROFILE

# Bob Diekmann's FIRST BUILD

by Jim Neuzil

Bob's love for cars started in the U.S. Air Force which he joined in 1963, his first car was a 1954 Ford custom, which he sold and purchased a 1957 Ford Convertible with a 312 police interceptor engine. When he went overseas to Guam his older brother bought it. Upon returning from overseas he bought a 1967 GTO in Indiana which he did some drag racing on and off the strip, also attended the Indy 500. Bob then got an overseas assignment to Korea at the start of the Pueblo Crisis and his younger brother bought this one. He tried to buy it back in 1991 as it was parked in a back yard with weeds all around it, he said no and put it on a semi and send it to Juneau, Alaska where it is today. Upon Bob's return to the states he bought a 1969 Firebird which ended up going to my stepson with Bob's next overseas trip to South East Asia. This return got him a 1923 T Bucket Roadster with a Ford flat head and a 1957 Chevy pickup; these went into storage upon his departure to Southeast Asia again. Bob's return took him to Florida along with his 57 and T Bucket and with the purchase of a Harley Davidson. These were all sold off when he departed for Germany and a BMW was purchased to travel the autobahns. His return to the states upon return brought Bob to Ellsworth AFB, SD where he retired and stayed after 26 years seeing many countries and a wealth of experiences. During this career he was an Explosive Ordnance Disposal Technician (EOD or Bomb Squad)

Bob's next 23 year career took him all over the US and Canada conducting remediation operations of old military bombing ranges, artillery ranges and other sites containing hazardous munitions. During these travels he picked up a 1948 F-1 Ford Panel truck which is to be his next project. He never got to it with his constant moving around from job to job. Bob's plans are to put a Mustang front end and 9" Ford rear end and a 351 Cleveland for engine stroked to 500 plus horse power. It has some great patina from a Gallup, NM mechanic shop where he bought it.

Bob's current driver was purchased in Denver in 2003 while there working. It is the 1949 F-1 Ford Copper-Orange truck shown. He got his driver's license in a like truck; it also has the engine from his dad's last truck, 1971 Ford F100, before he passed away. In Bob's words, I started a frame off restoration, which was my first attempt at a hot rod build project/restoration. This kept me off the streets and out of bars on weekends. The engine is a 302 bored, balanced, blue printed, roller rockers, Keith Black racing pistons and estimated 350 HP. 9" Ford rear end, Mustang II front end, dual quads and MSD ignition. I completed all the work except the final body work, paint and upholstery. The wood console and side boards were my own creation also. The kids and grandkids have put in their requests when I get done have fun with it some day, but hopefully that is down the road a ways.

I finished the 49 F-1 in June of 2013 and have been having fun taking it to Car Shows, Rod Runs, Cruise-Ins and just having the enjoyment of driving it. The wife wants to accompany me on these events starting this year. I won the 2013 "Car of the Year" and "New Rod of the Year" award for our car club, The Counts of the Cobblestone. I learned a lot and got my interest back in cars again and my first car club which I have been a member for 3 years and current treasurer. Looking back in the past it would be nice to have some of my old vehicles back.

I grew up on a farm in NE Nebraska with my folks being from Burke and Gregory, SD. The Black Hills is now and forever home and it is great to be around a good car club and great gear head friends. I also build furniture and other wood projects as a hobby and extra money to put into my vehicle projects. I also spend a lot of volunteer time in support of "The Rimrock Community Center at Johnson Siding" and helping neighbors in our housing development.

# Sioux Falls, SD WINTERFEST of WHEELS

Winterfest Of Wheels Car Show 7  
– 8 & 9 Feb 2014 by Bob Diekmann

The car show was attended by Craig Seidel with his 98 Nissan Skyline and me with my 49 Ford F-1. They had about 100 cars, trucks, bikes and rat rods there. It was a nice family event to support the Cure Kids Cancer Program with kids coloring contest, model car completion and autograph signing by Disney's channels show Jessie – Payton List. Also in attendance was Miss South Dakota along with several JR Miss South Dakotas.

Joe Floyd has his stainless steel 1936 Ford there which was 1 of 6 built before the dies were destroyed. Stamping out the stainless parts for the 6 cars destroyed the dies; therefore no more spare parts for the 36 ford could be produced

There was also a 1 of 69 Copo Camaro there, it was started each day to draw attention, which it did. Very impressive vehicle. There were several very beautiful professional built vehicles that were also very impressive.

Black Hills Plating, the Camaro Car Club and Amzoil were venders there from the Black Hills area.

A good time was had by both of us and we got some interest for our February Car Show and our July Rod Run. Got to see one of my 1962 high school classmates that was in attendance at the show.

Craig Seidel's Nissan Skyline Miss SD with Bob's PU

## CLUB LOSES ANOTHER MEMBER, HENRY YANTZER on January 4th, 2014

Henry C. Yantzer, 67, Rapid City, SD passed away Saturday, January 4, 2014 at the Rapid City Regional Hospital Hospice House after losing a battle with a rare form of neuroendocrine cancer. Henry Charles Yantzer was born August 24, 1946 in Center, ND to his German parents Anastasia (Anna) Schmidt Yantzer and Henry Yantzer. He was the 6th child out of a family of seven. He grew up with two brothers and three sisters. He graduated from Center High School in 1964 and attended Bismarck Junior College Vo-Tech Trade School and Dickinson State College.

Henry drove truck for six years for Northern Improvement and Missouri River Sand & Gravel, Bismarck, ND and Lurkee Brothers out of Judson, ND. Henry worked for the Carpenters Union in Bismarck for five years. During this time, he married Carol Jenness in November 1970 and from this union was born his only daughter, Laurie Ann.

Henry went into partnership with his friend, Skip for six years in the Bismarck Mandan area doing drywall and metal studs. He married Marsha Martin on June 10, 1978. In 1986, Henry started his own business Tri Drywall, Inc. in Mandan, ND. In 1989, he and Marsha moved to Rapid City, SD. He continued his Tri Drywall Business up to 2012 when he retired. Henry did drywall and metal studs in many, many buildings in the Rapid City area. He won a craftsmanship award on the First Western Bank Building on the corner of West Boulevard and Omaha St. in Rapid City, SD.

Henry was an avid fisherman. He loved fishing the many lakes in the Hills and the Missouri River. Henry also loved golf and spent many happy hours golfing. He and his team members won the Construction Industry Center Appreciation Golfing Tournament many times. He spent his winters in Palm Desert, California for about five years and had many good friends and golfing buddies at Palm Desert Greens.

Henry's greatest passion was cars. He had great fun restoring many different vehicles. He restored several Packards, and won many awards on them. Car shows and auctions were one of his favorites past times. He was a member of the Counts of Cobblestone.

Henry loved a good joke, dancing, and giving people a hard time. He adored his grandchildren and they always had fun with Papa playing cards and games, fishing, teasing each other and having a good time. He was a very loving man and will be greatly missed.

Survivors include his fiancée, Dorene Schochenmaier; daughter, Laurie (Chad) Dvoracek and their daughters, Samantha, Alaethia, and Rebecca; step-son, Cody (Darlene) Martin and their children, Abigail, Zachary, Olivia, and Conner, step-son, Blaise Martin; sisters, Helen (John) Berger, Luella (Raymond) Berger, Paulette (Howard) Windhorst; brother, Melvin (Marjean) Yantzer; sister-in-law, Esther Yantzer; and many nieces, nephews, cousins and their families.

He was preceded in death by his parents; sister, Eleanor (age 3), brother, Raymond Yantzer; and his brother-in-laws, Johnny and Raymond Berger.

In lieu of flowers, memorials have been established to the American Cancer Society or the Rapid City Regional Hospital Auxiliary Hospice house.

Visitation will be Sunday, January 12, 2014 from 5:00 – 7:00pm at Kirk Funeral Home in Rapid City with a Christian Wake Service starting at 7:00pm.

Mass of Christian Burial will be Monday, January 13, 2014 at 11:00am at St. Therese the Little Flower Catholic Church with Father Bill Zandri officiating. Burial will be at a later date in Center, ND.

# Counts 15th. Annual CAR SHOW

**2014 sets a record  
for quality & quantity**

It has been several years that the Counts Car Show has been scheduled in March. The weather co-operated and move in and out went smoothly.

It has been a long time that I can say that the judges had their work cut out for them in picking the Best in Category at the Counts Car Show. It was just like the old days of the World Of Wheels car shows when the points runners were going into the finals and needed a show the size of Rapid City to sew up the big win. Thanks to the Car Show committee for hiring a professional judge with ISCA background to head up the judging.

It is amazing that we have developed such a reputation for putting on a great show with super prize money that guys with the high dollar cars are willing to bring them to Rapid and treat our spectators to such a quality show. I told several people that Lacroix Hall was worth the admission alone but the same can be said for all the different rooms. Now we hope we can continue to afford the rent at the Rushmore Plaza Civic Center and still keep it affordable to the average local spectator. They are the reason we continue to do this plus we know that the local car owners want to show off their rides too! JN

**Ron Meis's '65 GTO won Best of Show**

**This 1969 Camaro was a work of art**

The show was impressive from all angles.  
The club booth was busy all weekend

**Monte Stabnow's Lincoln coupe**

**Bob Diekmann's '49 Ford PU**

**Counts raffle booth was busy**

**Nice Belle Fourche AMX**
